System Requirements For Easy MP3 Player:

To be clear, Blade & Soul's requirements for the Battle for Azeroth beta is fairly low. Unless you have a beastly rig with a GTX 1080 or Titan X, you should be able to get the beta without any issues. If you have been playing Dark Souls 3 on PC and haven't been playing for more than a year, you should also be fine. If you haven't played the game at all, you can still jump in now. We would suggest that you use the Dark Souls 3 guide for patch 1.12 if you are unsure.
