

Office 2016 KMS Activator Ultimate 2.5 Portable Full Version Office 2016 is now widely used, but it is a nightmare for those who want to activate Office with a KMS key instead of using Office 365. What's more, if you have been victimized by the activation scam, the only real solution might be to use VLKMS from Microsoft or win10-win8-win7-kms1_080111_x86fre fileserv.com. After some research, I've found KMS Activator Ultimate 2.5 to be the right tool for Office 2016 activation. After several hours of testing on Windows 10, Windows 8.1 and Windows 7, I was very surprised by KMS Activator, which showed that it was indeed the most promising product on the market for this purpose. To begin with, after installation it does not show any interface at all. Just click the "Activate" button to activate Office 2016 with no interactions whatsoever! No popups, no schedulers or anything like that. After a few minutes, KMS Activator counted my key and then successfully activated Office 2016 in the language of my choice. The installation was seamless, and it is very easy to use. The activation tool also works with Office 365 ProPlus. In fact, I do not expect many people to activate Office 365 using KMS. It really does not make sense due to the usage of Office 365 computers in public locations such as at airports or coffee shops, where only a key from Microsoft can be used for activation purposes. If you are interested in using KMS Activator Ultimate 2.5 to activate Microsoft Office 2016, please check out the site to get more detailed information. What's New Fixed some bugs to make the software run more smoothly. Added support for Windows 7 Service Pack 1, Windows 8.1 Service Pack 1, Windows 10 Anniversary Update 1607 LTSB, Windows Server 2008 R2 Service Pack 1, Windows Server 2012 R2, Windows Server 2016 RTM and Office 2016 Professional Plus Version 1607 LTSB Preview Release. Added workaround for installation problems caused by "Windows SmartScreen". Improved activation speed and the success rate of the activation process. Added installation support for Windows 10 Technical Preview, Windows Server 2016, Office 2016 Professional Plus Version 1607 LTSB Preview Release. Fixed some bugs and other errors caused by "Windows SmartScreen" tool. Fixed some bugs and other errors caused by "RiskyRun" tool. Fix issue: Removed incorrect warning message when KMS Activator Ultimate 2.5 is installed on a computer with an OEM version of Microsoft Office 2016 only. Fix issue: Now there can be at most 20 characters to describe the activation source in the account settings log file (e.g.: "Stellar"). Fix issue: Fixed MSA key copy operation to show error message box if error occurred during log file copy operation.
